UNITED STATES GOVERNMENT

# *Memorandum*

TO : C/ASD

DATE: 16 June 1965

FROM : DAD/S&D

SUBJECT:

25X1A

I notice in your memo for the record on the ⬚ briefing
25X1A  that ⬚ is looking for a vulnerability analysis wherein the
25X1A  value of ⬚ is clearly proved.  Would you please initiate the
appropriate memoranda to OSI to get them to do this?  I presume that
the information from ⬚ will be sufficient for this.
